

## **KEEPING COVID 19 SAFE**

Belle Ame Tents agrees that in line with government guidelines business will only take place where social distancing can be maintained, suitable PPE is worn at all times by all members of staff and safe working measures are followed at all times to protect staff and customers.

Bookings are being taking from 2<sup>nd</sup> April 2021 onwards and therefore we are hopeful that the groups of 6 or 2 households' guidance will have come in to affect. If this is not the case, then we can only provide our tents for bookings where guests are from the same household or support bubble. As restrictions change our Covid policy will adapt accordingly.

We have cleaning, handwashing and hygiene procedures in place, including use of face masks, hand sanitizer and cleaning of both hard and soft furnishings before and after use.

Our team will remain outside and ask customers to stay indoors or 2m whilst they are setting up. This is done to protect our team and customers from transmission risk.

There is at least 72 hours between each use to ensure enough resting period.
